

Altitude Training Associates is a group of unique consultants and training instructors presenting programs in Environmental Management, Permit Compliance and Worker Health and Safety. We provide training programs for facility personnel, compliance officers, trainers and management. Courses are designed to assist organizations (business, industry, federal, state and local jurisdictions) comply with legal requirements and improve operations. Specialized programs are also available that meet the specific needs of a particular organization. Our instructors are expert trainers with years of corporate and college teaching experience.
