

ANNOUNCEMENT

Online CETC 150 Stormwater Management & Erosion Control (SMEC) Classroom Only July 21, 2022

Registration & Payment: www.altitudeta.com

The **online** SMEC class is a one day introductory program focused on the installation and maintenance of Control Measures for erosion and sedimentation on construction sites and covers the requirements of the construction stormwater permit. The class is delivered using the Zoom platform. This is an excellent class to build your knowledge of permitting requirements and control measures to protect water quality. This course is the prerequisite requirement for the Qualified Stormwater Manager (QSM) certification program. Note: this is the classroom only portion of a day and half training program that runs back to back days. There is no additional cost to attend the second day field trip if you choose to attend.

One day Online Time: 8am – 4:30pm

Topics Covered

- The Stormwater Program permit requirements and Stormwater Management Plans (SWMPs).
- Erosion and Sedimentation at construction sites.
- Types of Control Measures for specific conditions to control erosion and sedimentation.
- Installing and maintaining construction site Control Measures

COST: \$250/person CEUs: 8.0
