

ANNOUNCEMENT

Online Stormwater Management & Erosion Control (SMEC) for Oil & Gas Operations

May 26, 2022

Registration & Payment: www.altitudeta.com

The online SMEC for oil & Gas Operations is a one day program focused on the installation and maintenance of Control Measures (Best Management Practices) for erosion and sedimentation for oil & gas activities including pad construction and pipeline installation. The class covers the requirements of the construction stormwater permit and is an excellent class to build your knowledge of permitting requirements and control measures to protect water quality. This course meets the prerequisite requirement for the Qualified Stormwater Manager (QSM) certification program.

Because this online class is instructor led, you will need a computer with a camera and microphone to attend.

Time: 8am - 430pm (mountain time)

Topics Covered

- The Stormwater Program permit requirements and Stormwater Management Plans (SWMPs).
- Erosion and Sedimentation during construction activities.
- Types of Control Measures for specific conditions to control erosion and sedimentation.
- Installing and maintaining construction site Control Measures

COST: \$150/person

INSTRUCTOR: Scott Olson • (307) 630-8110 • scott@altitudeta.com
