

ANNOUNCEMENT

Online CETC VC 150 Stormwater Management & Erosion Control (SMEC)

February 3, 2022

Registration & Payment: www.altitudeta.com

The online SMEC class is a one day introductory program focused on the installation and maintenance of Control Measures (Best Management Practices) for erosion and sedimentation on construction sites. The class also covers the requirements of the construction stormwater permit. This is an excellent class to build your knowledge of permitting requirements and control measures to protect water quality. This course meets the prerequisite requirement for the Qualified Stormwater Manager (QSM) certification program.

Because these online classes are instructor led, you will need a computer with a camera and microphone to attend. Note: because of the ever changing conditions, a class date could be changed to be in person. *VC refers to the class as virtual.

Time: 8am - 430pm

Topics Covered

- The Stormwater Program permit requirements and Stormwater Management Plans (SWMPs).
- Erosion and Sedimentation at construction sites.
- Types of Control Measures for specific conditions to control erosion and sedimentation.
- Installing and maintaining construction site Control Measures

COST: \$250/person CEUs: 8.0
